SUBJECT INDEX

AIDS
education, stress, occupational health, staff development 163
HIV, cognitions, intentions, schools 155
HIV, prostitute, mass media, interpersonal communication 385
indigenous surgery, circumcision, HIV, southwestern Nigeria 379
school-based prevention, young adolescents 329
Alcohol education
health education, health promotion 495
Breast radiography
focus groups, mass screening, mobile mammography, patient compliance 179
Cancer
measurement, breast and cervical cancer program, measuring implementation, Maryland 11
Child accident prevention
general practitioners, 'The health of the Nation' 345
Circumcision
indigenous surgery, HIV, AIDS, southwestern Nigeria 379
Complementary medicine
orthodox medicine, perceived efficacy, lay medical beliefs, professional medical beliefs, health education implications, role of complementary therapies 395
Diabetes
self management, goal setting, feedback, systems intervention, personalized intervention, computer-assisted nutrition 467
Education
AIDS, stress, occupational health, staff development 163
Empowerment
health education, multi-level construct 309
Health
communication research, mass media, health educator/broadcaster, co-operation 421
Health behaviour
bidimensionality, addictive behaviours, health enhancing behaviours, adolescents 83
health beliefs, bias in self reports 107
health promotion, covariance, youth, adolescent 133
health promotion, nutrition education, youth, adolescent 119
sleeping habits, eating habits, adolescent, meaning of behavior 355
Health beliefs
health behaviours, bias in self reports 107
Health education
empowerment, multi-level construct 309
health programs, promoting health, disease prevention, role of a statewide conference, school-based prevention, children 487
health promotion, alcohol education 495
measurement, community organization, program evaluation, volunteers 27
mental health, campaign, mass media, taboo 257
mental health, intervention, mass media 267
television, drama, beliefs, attitudes, behaviours 225
Health loci
causal agents of health, ethnicity, church affiliation 73
Health promotion
health behavior, covariance, youth, adolescent 133
health behavior, nutrition education, youth, adolescent 119
health education, alcohol education 495
measurement, self-efficacy, conceptualization 37
Smart Choices Project, diffusion 279
worksite health promotion, audience segmentation 211
Health risk appraisal
worksite health promotion, risk reduction, cholesterol, blood pressure, body mass index, exercise 199
HIV
AIDS, cognitions, intentions, schools 155
AIDS, prostitute, mass media, interpersonal communication 385
indigenous surgery, circumcision, AIDS, southwestern Nigeria 379
Indigenous surgery
circumcision, HIV, AIDS, southwestern Nigeria 379
Mammography
barriers, motivating factors, Chinese women, Singapore 431
Measurement
cancer, breast and cervical cancer program, measuring implementation, Maryland 11
health education, community organization, program evaluation, volunteers 27
health promotion, self-efficacy, conceptualization 37
outcome expectations, fruits, vegetables, children, validity, reliability 65
reliability, validity i (1)
Melanoma detection
health education, information 191
Mental health
health education, campaign, mass media, taboo 257
health education, intervention, mass media 267
Nutrition education
health behavior, health promotion, youth, adolescent 119
Orthodox medicine
complementary medicine, perceived efficacy, lay medical beliefs, professional medical beliefs, health education implications, role of complementary therapies 395
Peer health education
sexual health, adolescence, theory, evaluation 407
Perceived Health Competence Scale
development, validation 51
Scale development
qualitative methods, quantitative methods 1
Sexual behavior
sex education, adolescent, Latinos, Hispanics 233
Sexual health
peer health education, adolescence, theory, evaluation 407
Smart Choices Project
health promotion, diffusion 279
tobacco prevention, diffusion, adoption phase 297
tobacco prevention, diffusion, dissemination phase 283
Smokeless tobacco
snuff use, adolescents, physical activity, sports clubs 147

Smoking
knowledge, attitudes, medical students, Bahrain 479
personal construct theory, adolescents 95
worksite smoking cessation, stages of change, smoking cessation counseling 455
young people, social image, Scotland 443
Snuff use
smokeless tobacco, adolescents, physical activity, sports clubs 147
Stages of Exercise Behaviour Change
self-report, physical self-perceptions, discriminant analysis, young adults 365
Tobacco prevention
Smart Choices Project, diffusion, adoption phase 297
Smart Choices Project, diffusion, dissemination phase 283
Worksite health promotion
health risk appraisal, risk reduction, cholesterol, blood pressure, body mass index, exercise 199
